

Automated Screening Emails

User Guide

We Can Ride | Staff Reference Guide

Overview

Two new automated emails have been set up in Salesforce to streamline communication with new clients during the screening and enrollment process. These emails are sent automatically — no manual action is needed beyond what you already do in the system.

Key Point

These emails are sent only to new clients (New Registration waivers under NewClientPolicies). Volunteers will never receive these emails.

Staff Visibility

Both emails automatically CC clients@wecanride.org, so staff will receive a copy of every email sent to clients.

Email 1 — Screening Scheduled

Subject Line	Screening Appointment Confirmation
Sent From	clients@wecanride.org
Sent To	The client's email address (from their Contact record)
CC	clients@wecanride.org (staff copy)
Attachments	None
Template	"Screening Scheduled" (in Salesforce Email Templates)

When does it send?

This email is sent **immediately** when you enter a Screening Date/Time on a new client's waiver record for the **first time**.

Step by Step

1. Open the client's **NewClientPolicies waiver** record
2. Fill in the **Screening Date/Time** field with the scheduled date and time
3. **Save** the record
4. The email is sent **automatically** to the client with the date and time included in the message

Important Notes

- The email only sends the first time you enter a date. If you change the date later, it will not send again automatically.
- The client must have a Contact record with an email address linked through their Client (Rider) record. If no email is on file, the email cannot be sent.

What does the email include?

The email welcomes the client and includes:

- The **scheduled date and time** of their screening (pulled automatically from the record)
- Arrival and parking instructions (4301 County Rd 24, Maple Plain, MN 55359)
- What to expect during the 45-minute screening visit
- Information about the screening fee
- Next steps after the screening

Email 2 — Screening Complete

Subject Line	Welcome to the Program - Getting Started & Next Steps
Sent From	clients@wecanride.org
Sent To	The client's email address (from their Contact record)
CC	clients@wecanride.org (staff copy)
Attachments	6 PDF documents (see below)
Template	"Screening Complete" (in Salesforce Email Templates)

When does it send?

This email is sent **automatically** after you complete the screening process and click the **"Complete Application"** button on the waiver record.

Step by Step

1. Complete the client's screening and fill in all screening-related fields on the waiver
2. Enter any additional information needed for the application
3. Click the **"Complete Application"** button on the waiver record
4. The email is sent **automatically** to the client with all 6 documents attached

Attached Documents

The following 6 PDF documents are automatically attached to every "Screening Complete" email:

#	Document
1	Client Handbook
2	Client Registration & Policies
3	Payment Policy Notice — Therapeutic Riding & Hippotherapy
4	(Yearly) Session Dates
5	Therapeutic & Hippotherapy Riding Guidelines
6	Guide for Requesting Classes

These documents are pulled from Salesforce Files. If a document needs to be updated, upload the new version to the same Content record in Salesforce — the email will automatically use the latest version.

What does the email include?

The email welcomes the client to the program and includes:

- Enrollment and deposit information (\$150 deposit)
- Cancellation policy details (30-day notice for full refund)
- How to request future sessions through the portal
- How to prepare for their first class (attire, helmet, etc.)
- Contact information (clients@wecanride.org)

Quick Reference

	Email 1: Screening Scheduled	Email 2: Screening Complete
Trigger	Enter Screening Date/Time and save	Click "Complete Application" button
Timing	Immediate	Immediate
Attachments	None	6 PDFs
CC	clients@wecanride.org	clients@wecanride.org

Troubleshooting

The client didn't receive the email

- **Check the client's Contact record** — make sure there's a valid email address on the Contact linked through the Client (Rider) record.
- **Check their spam/junk folder** — ask the client to look in spam for an email from clients@wecanride.org.
- **For Email 1** — the email only sends the first time a Screening Date/Time is entered. If the field already had a value and was changed, the email won't resend.
- **For Email 2** — make sure you clicked the "Complete Application" button (not just saved the record).

I need to resend an email manually

These automations do not currently support manual resending. If a client needs the email resent, contact your Salesforce administrator for assistance.

I need to update one of the attached documents

Upload the updated document as a **new version** of the existing file in Salesforce Files. The email will automatically include the latest version going forward. Do not delete and re-upload as a new file — that would break the link.

A volunteer received a client email

This should not happen — the automations only trigger on **New Registration** waivers under the **NewClientPolicies** template. If this occurs, please notify your administrator as the record type may have been set incorrectly.
